South Tangerang

Profile

I am a fifth-semester student in the Information Technology Program at Multimedia Nusantara University with an interest and focus on website development. I have a basic to intermediate understanding of web development, both frontend and backend, and am accustomed to working on academic and independent projects. I am interested in continuing to develop my technical and problem-solving skills in the field of web development.

Education

- **Bachelor of Science in Informatics, Multimedia Nusantara University** 2023 – 2027 (Expected)
- **SMA Negeri 7 Kota Tangerang Selatan** 2020 – 2023

Key Skills

- Languages: JavaScript, PHP, HTML5, CSS3, Python, Kotlin
- Frameworks & Libraries: Laravel, React, Next.js
- Databases: MySQL, Firebase
- Tools & APIs: Git, GitHub, RESTful APIs,

Projects

Full-Stack Digital Library & Learning Platform

- Developed a full-stack Digital Library using Laravel, successfully facilitating resource access and management for 50+ active student users.
- Implemented Role-Based Access Control (RBAC) to secure sensitive data and streamline administrative workflows.

Website Warmindo Papa Oy

- Developed a responsive marketing website for Warmindo Papa Oy using Next.js, ensuring a seamless user experience across devices.
- Implemented key features including a dynamic hero section, digital menu, interactive location map, and social media links to streamline customer access to information.

Website Donat KPK

- Built a seamless cross-device interface using Laravel Blade, prioritizing responsiveness to retain users on both desktop and mobile platforms.
- Optimized the navigation and menu layout to improve site structure and usability for users.
